

Eco Church – by Sunday Special

The greatest among you should be like the youngest. *Luke 22:26b*

Several of our keen Sunday Special Eco Group have been sharing their views on our progress so far.

Oscar: “I think it’s important that we are aware of climate change and love nature and that the church is helping us to do this.”

Eva: “We had fantastic fun making a bug hotel at the Eco Action Day, and now it’s filled with lots of insects so they have a safe home. I enjoyed throwing the seed bombs onto the mud, making more flowers and attracting bees.”

Phoebe: “I really enjoyed making bird feeders at the ECO Action Day and hung them in my garden.”

George: “After our Sunday Special services, we threw the seed bombs down and made bird scarers out of recycled strips of plastic bags. It’s great for the environment rather than throwing the plastic away.”
